

Volunteers!

If your program begins on October 7th, you have 14 business days to finish recruiting volunteers.

If your program begins on October 1st, you have 9 business days to finish recruiting volunteers.

By this stage, you should have 75% of your volunteers registered. How many will you need? That's hard to say and it depends upon your program. If you're working with one elementary school, you'll probably need 30 to be successful. So if your numbers are still in the single digits, then you are significantly behind and will need to totally concentrate on finding several adult volunteers per day in order to be successful.

Need help? Let's talk. Schedule an appointment with me at www.doodle.com/pednet
